Kent,

I have processed the preliminary Tire Crumb samples Scott got [REDACTED] I am in the process of running the emissions samples via my methods. I can perhaps have a full update by next Thursday. [REDACTED]
[REDACTED] Ex. 3 [CERCLA 104(e)(7)(42 USC 9604(e)(7))]/Ex. 5 DP
[REDACTED] Ex. 3 [CERCLA 104(e)(7)(42 USC 9604(e)(7))]/Ex. 5 DP I am attaching the summary of the Tire Crumb preliminary data compared to the Tire Crumb specific target compounds. I will have the comparison to the DSS-TOX list compiled next.

I have written a QAPP and SOP for the NTA work in general. Hope to simply cite this in the Tire Crumbs QAPP. Scott has added some detail to the Tire Crumbs QAPP but I have not yet been able to check it out yet. I will do so soon.
Mark

Subject: Meeting conflict today

Hi folks –

Tammy told me there is an EMDM all-hands meeting at 2 pm that conflicts with our TCRS tech meeting.

If you can't be there, let me know if there is any info you want me to convey. I think I know something about the VOC and SVOC analyses. I'm not sure whether there is any new information on the metals side.

Thanks,
Kent
